

A Message to Our Stakeholders

Re: Covid-19

With the closing of schools, Building2Learn's school programming has been suspended through the Governor's Safer at Home Executive Order deadline of April 24, and potentially longer depending on the scheduling demands and specific circumstances.

We are aware of the extraordinary pressures on educators and would like to reassure them that we will be ready to do all that we can to help re-implement effective hands-on programming when that day comes.

We continue our efforts at Building2Learn to plan our programming and foster relationships that are essential to our work as a consortium. Our leadership team and staff continue their work from home offices through virtual meetings including recent online mock interviews with high school students gearing up to graduate. We do this to further the mission of Building2Learn to produce equitable paths to lifelong employability for students and a sustainable pipeline of diverse talent for skilled trades and manufacturing careers.

We will continue to monitor the COVID-19 situation and work with our school partners as we follow the guidance of the CDC, as well as our state and local government.

Please take good care of yourselves and those around you.

Best wishes,

Joe Schmidt
President
Building2Learn
